Excellence and Quality in Early Childhood Education

2022 - 2023

MOMMY & ME PROGRAM (not offered at this time)

Our Mommy & Me classes for toddlers ages 4 - 23 months meet once or twice a week. Each class is approximately 1 1/2 hours long. The children participate in arts and crafts, music, singing, finger play, body movement, puppetry, inside and outside free play activities, and water play during the warmer months. They also learn appropriate social skills by interacting with the other children in their play group.

TODDLER PROGRAM

Our Toddler classes are designed for children ages 18 - 30 months of age. Children may attend half days or full days. Our program provides a safe, nurturing environment in which toddlers learn through play and exploration. The children participate in arts and crafts, music, singing, finger play, body movement, puppetry, and outside free play activities. All activities are age-appropriate, boosting cognitive and motor skills while helping develop verbal skills.

TWO YEAR OLD PROGRAM

Our two year olds may attend half days or full days. The full day children must have a rest time in the afternoon. Children do not need to be potty-trained. The teachers will work with them in this area. We stress social and emotional growth. We also work on developing the children's language skills. Each month the classes will have a different theme and the activities in the classroom will center around the theme. Activities include music, instruments, puppetry, body movement, arts and crafts, dramatic play, block play, number concepts, colors, shapes, science, and other age appropriate learning skills. This class sets a foundation and prepares the children for further learning skills such as social, emotional, and academic.

THREE YEAR OLD PROGRAM

Three year olds may attend half or full days. Most of the children are now potty-trained. We stress social and emotional growth as well as language development and independence. We work with each child according to his/her individual needs. The pre-school activities described above are included in the 3 year old program. In addition to these activities, we introduce name and letter recognition, number concepts and recognition, shapes, sizes, and other age-appropriate learning concepts. This is a non-pressured, relaxed, low-key program.

PRE-KINDERGARTEN PROGRAM - FOUR YEAR OLDS

This is a full day class only. All the children attend full day in order to benefit from this excellent program. The pre-kindergarten program offers all of the activities listed above. In addition we offer a complete learning program consisting of number concepts, number recognition, writing, phonetics, reading readiness skills, and book reports. A computer is in every pre-kindergarten classroom, providing an additional educational program to encourage and develop the children's beginning computer skills. This is a non-pressured program which prepares your child for kindergarten socially, emotionally, and academically. We are very proud of the children's accomplishments in our pre-kindergarten program.

KINDERGARTEN

Our kindergarten program is a five day a week, full day program. We offer a strong academic program in a low-key, non-pressured environment. The class size is kept small so each child can benefit from individual attention. The children are able to reach different levels as our individualized programs stimulate each child's desire to learn and investigate. The children develop a strong love for learning and progress at their own rate. We offer a strong mathematics, phonetic, and reading program. The children participate in science, drama, crafts, social studies, and other creative activities. The kindergarten program includes an exciting computer program. Our goal is to give each child a strong academic foundation and to foster a genuine love for learning and a desire to succeed.
